EDUCATION

KIET Deemed to be University

Bachelor of Technology in Computer Science Engineering, CGPA: 8.62/10.0

Ghaziabad, UP

Expected: May 2028

Morning Star Children's Academy

Class XII, CBSE Board - 90.2%

Orai, UP

Apr 2022 – Apr 2023

PROJECTS

Shopfinity — Multi-Vendor E-Commerce Platform | *Next.js, TypeScript, MongoDB* 🌐 Live 📄 Code

- Engineered a full-stack multi-vendor e-commerce platform supporting three user roles: shoppers, vendors, and admins
- Implemented secure authentication and role-based dashboards enabling vendors to manage catalogs and admins to oversee operations
- Integrated Stripe and Cash on Delivery payment workflows reducing checkout friction and enabling secure transactions.
- Developed AI-powered chat assistance using the Gemini API to enhance customer support and user experience

QuickBasket — Grocery Delivery Platform | *Next.js, TypeScript, MongoDB* 🌐 Live 📄 Code

- Built a full-stack grocery delivery app for customers, admins, and delivery personnel with distinct role-based workflows
- Designed a real-time order tracking system enabling users to monitor delivery status with live updates
- Integrated secure Stripe payments alongside Cash on Delivery for a seamless checkout experience
- Created a comprehensive admin dashboard for inventory, order, and delivery-personnel management

POSITION OF RESPONSIBILITY

Coordinator, InnoTech Technical Club, KIET Deemed to be University

2025 – Present

- Coordinated technical events and conducted a hands-on GitHub Bootcamp for first-year students covering repositories, commits, branching, and collaboration workflows
- Mentored juniors in Web Development by teaching HTML, CSS, and JavaScript, and guided them in building and managing projects using GitHub

ACHIEVEMENTS

- Ranked 4th at institute level in Smart India Hackathon (SIH) internal evaluation
- Selected among Top 100 Teams in the Hyperspace Innovation Hackathon

CERTIFICATIONS

- AWS Certified Data Engineer – Associate
- AWS Certified Cloud Practitioner

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

AI Tools: ChatGPT, GitHub Copilot, Google Gemini, Claude, Lovable

Developer Tools: Git, GitHub, VS Code, Postman, Vercel

Problem Solving: 300+ DSA Problems
